## PROCESSING INDUSTRY

### «APATIT», JSC

**Contact information:**

+7 (800) 234-29-00  
www.phosagro.ru

**Types of manufactured products:**

- production of fertilizers

Europe's largest producer of phosphate-based fertilizers, phosphoric and sulphuric acids, and one of Russia's leading producers of NPK fertilizers, ammonia and ammonium nitrate.

### «SEVERSTAL», PJSC

**Contact information:**

+7 (8202) 53-08-75  
www.severstal.com/rus

**Types of manufactured products:**

- metallurgical production

Top 10 world's largest vertically integrated steel and mining companies with assets in Russia, Latvia, Ukraine, Poland, Italy and Liberia. One of the world's top 20 steel producers. "Severstal traces its history back to the establishment of a steel mill in the city of Cherepovets (Vologda region, Russia).

### «SEVERSTAL-METIZ», JSC

**Contact information:**

+7 (8202) 53-91-91  
www.metiz.severstal.com

**Types of manufactured products:**

- production of wire
- calibrated rolled products
- shaped sections
- nails
- fencing systems
- steel ropes,
- fasteners

"Severstal-metiz" is a group of companies that unites the metalware assets of Severstal, is one of the TOP-5 largest European companies in its segment and is focused on creating value for the customer through the best "product-service" portfolio.

### NORTHERN PIPE COMPANY, LLC

**Contact information:**

+7 (800) 700-13-08  
www.stktubes.ru

**Types of manufactured products:**

- electrically welded longitudinal seam steel pipes of small diameter

Northern Pipe Company has been on the market of rolled metal products since 2009. During the period of work has established itself as a reliable supplier and partner. The products are exported to many countries.

## SCIENTIFIC AND PRODUCTION ASSOCIATION AKONIT, JSC

### Contact information:

+7 (81738) 5-30-23  
 ustugmolokomz@mail.ru  
 www.ustyugmoloko.ru

### Types of manufactured products:

- conveyor equipment

Scientific production association Akonit is a major Russian manufacturer and supplier of technical solutions and equipment for bulk cargo transportation (conveyor equipment). For 22 years of work over 550 projects have been implemented for enterprises of mining, extractive, metallurgical, chemical, gold mining, coal, power industry, large ports.

## VPZ, CJSC

### Contact information:

+7 (8172) 79-72-50  
 +7 (8172) 53-23-70  
 www.vbf.ru

### Types of manufactured products:

- ball and roller bearings
- assembled products
- complete repair kits and special products

The largest enterprise of the Russian bearing industry, a leader in the production of bearings of all design groups.

The company's product range includes more than 1700 basic sizes of ball and roller bearings, as well as assembled products, ready-made repair kits and special products, including those manufactured according to customer's drawings. The products are supplied to enterprises in the automotive industry, agricultural machinery, metallurgy, petrochemical and mining industries, machine tool industry, electrical engineering, fuel and energy complex and others.

## VZSP, LLC

### Contact information:

+7 (8172) 51-55-16  
 www.vzsp.ru

### Types of manufactured products:

- ball and roller bearings
- assembled products
- complete repair kits and special products

The company develops and designs modern high quality bearings and bearing supports with technology leaders in civil aviation, oil and gas production and power engineering industries.

## CHLMZ, JSC

**Contact information:**

+7 (8202) 20-28-52  
www.chlmz.ru

**Types of manufactured products:**

- production of tractors
- backhoe loaders
- municipal machines
- fastening elements for petrochemical industry

Joint Stock Company «Cherepovets Foundry-Mechanical Plant» is a modern high-tech foundry that meets international standards. The company produces high quality castings from special steels for customers in various industries, including import substitution.

## TRANS-ALPHA, JSC

**Contact information:**

+7 (8172) 21-69-32  
www.trans-alfa.com

**Types of manufactured products:**

- production of trolleybuses and electric buses

Trans-Alpha production in Vologda has been specializing in the production of trolleybuses and electric buses for 30 years. Production capacities, technological capabilities of the enterprise and high qualification of the personnel allow to produce up to 2000 units of vehicles per year. Vologda trolleybuses and electric buses are operated in more than 80 cities of the Russian Federation and neighboring countries.

## VOLOGDA MACHINERY, LLC

**Contact information:**

+7 (911) 047 89 47  
www.vologdamash.ru

**Types of manufactured products:**

- tank trucks
- tank trailers and semi-trailers for transportation and temporary storage of food liquids
- as well as stationary tanks up to 50 thousand liters

One of the largest manufacturers of tank trucks, semi-trailers and tank trailers for transportation of food liquids in the North-West Federal District. Every year the plant increases production volumes and expands the range of manufactured products.

## MEKHANIKA, LLC

**Contact information:**

+7 (8202) 49-05-24

www.tinger.ru

**Types of manufactured products:**

- Off-road vehicles

Federal leader in off-road vehicles, including those running on low-pressure tires.

The company has more than 10 authorized dealerships across Russia.

## LESNIK, LLC

**Contact information:**

+7 (921) 716-57-00

www.lesnikvologda.ru

**Types of manufactured products:**

- Off-road vehicles

The company is a manufacturer of unique floating snow and swamp-going vehicles supplied to all hard-to-reach places in Russia.

## NORTHERN TECHNOPARK, LLC

**Контактная информация:**

+7 (921) 531-49-83

www.technopark35.ru

**Types of manufactured products:**

- specialized machinery and a wide range of machine building components

Machine-building plant, for the production of specialized machinery and a wide range of machine-building components.

Extensive industry experience, in-house design office and state-of-the-art equipment.

## STROYMATIC, LLC

**Contact information:**

+7 (921) 250 56 73

www.stroimatic.com

**Types of manufactured products:**

- mobile piling machinery

Stroymatic has created the world's first compact tracked piling machine for the piling of reinforced concrete piles in private housing construction.

Specialized construction equipment was developed as an alternative to heavy and large-sized construction drop hammers, which were used on industrial sites and were not adapted to work in cramped residential areas.

## PROCESSING INDUSTRY

### SEVERPROMTARA, LLC

**Contact information:**

+7 (8172) 21-71-30  
www.severpromtara.ru

**Types of manufactured products:**

- metal containers
- conical and cylindrical steel drums

Modern high-tech production of metal containers of various capacities widely used in oil and gas, chemical and other industries.

### MESON, CJSC

**Contact information:**

+7 (8172) 75-01-52  
www.meson.ru

**Types of manufactured products:**

- precision engineering products

Research and Production Center for Precision Engineering specializes in the production of ultra-precision parts, including those for rocket construction. The engineering center created in the company in the field of industrial design was supported by the Ministry of Industry and Trade of Russia.

### TP MASHTRADE, LLC

**Contact information:**

+7 (8202) 20-03-33  
www.mashtrade.ru

**Types of manufactured products:**

- equipment, units, mechanisms and spare parts made of non-ferrous and ferrous metals

The company was founded in 2006 and today it has its own production base, a fleet of modern equipment, qualified personnel and experience in working with leading metallurgical and machine-building companies in Russia. The main activity of the company is metalworking and machining.

### ASM GROUP, LLC

**Contact information:**

+7 (8202) 29-70-85  
www.autospecmach.ru

**Types of manufactured products:**

- manufacture of dividing heads and other special fixtures for machine tools

"ASM Group" - a company in Cherepovets, ready to offer its customers a full range of services in the field of mechanical engineering and metalworking. The company manufactures and repairs rollers of continuous casting machines with hardening and restoration of the working surface of rollers by cladding.

### **SOTA, LLC**

**Contact information:**

+7 (8172) 26-40-44  
www.sota35.ru

**Types of manufactured products:**

- quickly erected modular buildings based on block-containers, metal structures and products

"Sota" was established in 2014 by specialists in block-modular construction and metal structures, which, in turn, gathered a well-formed staff of highly qualified employees.

Nowadays block-containers are used in various industries, from construction to trade or gastronomy. High quality products, innovation and dedication help Sota to open new markets, proving in practice the efficiency of mobile premises.

### **TECHNOOPT, LLC**

**Contact information:**

+7 (8172) 23-98-77  
www.technoopt35.ru

**Types of manufactured products:**

- Production of engineering and technical means of protection of industrial facilities:
- modular systems
- huts/block containers
- fences

TechnoOPT LLC is a manufacturing company with high capabilities, modern technological equipment and employees of the highest qualification. Today, TechnoOPT is one of the key suppliers of low-voltage complete devices and thermal cabinets, anti-ram barrier, as well as inspection and cable racks.

### **STALREMSTROY, LLC**

**Contact information:**

+7 (8172) 27-29-10  
www.volstal.ru

**Types of manufactured products:**

- Production of metal structures of any size and complexity from steels of any grades, including non-ferrous metals

Stalremstroy LLC specializes in the manufacture of metal structures, tanks, as well as mechanical processing of metal products. The company has extensive experience in metal fabrication of any size and complexity from steels of all grades, including non-ferrous metals.

## OPTIMEH, JSC

**Contact information:**

+7 (8172) 27-02-42

www.optimeh.ru

**Types of manufactured products:**

- medical and laboratory metal furniture for equipping medical and preventive institutions

Production company OPTIMEH JSC has been working in the market since 1993, its main products are medical and laboratory metal furniture for equipping medical and preventive institutions. The company has a license for the production of medical metal furniture, more than 150 products have registration certificates.

## IMMID, LLC

**Contact information:**

+7 (8172) 72-68-00

www.immid.ru

**Types of manufactured products:**

- plastic (HDPE) pipes
- components and welding equipment

Production company IMMID LLC - polyethylene pipes plant in 1997 successfully introduced production of polyethylene pipes, pre-insulated pipes and fittings for them. Eleven high-tech Austrian-made extrusion lines for the production of low-pressure polyethylene (HDPE) pipes are operating in the company's production shops.

## PLASTCOM WINDOW PLANT, LLC

**Contact information:**

+7 (8172) 34-76-48

www.plastkom.ru

**Types of manufactured products:**

- plastic products used in the construction industry

Plastcom Window Plant has been one of the largest manufacturers of transparent structures in the North-West since 2005. The company offers comprehensive solutions for the manufacture, supply and installation of high quality, technologically advanced and modern products.

## PROTEMOL, LLC

**Contact information:**

+7 (8172) 28-04-30

www.protex.ru

**Types of manufactured products:**

- Equipment for food industry enterprises

The company specializes in providing food industry enterprises with technological equipment and engineering solutions. The company provides services in technological design and production of equipment for dairies throughout Russia and CIS countries.

## OCTAVA-PLUS,LLC

### Contact information:

+7 (8172) 27-84-77  
www.oktava-plus.ru

### Types of manufactured products:

- Tool making (molds, dies)
- plastic products manufacturing

"Octava-plus" is a mobile enterprise with a full cycle of production, which has established itself in many regions of Russia. The company manufactures molds and dies for its own needs and by order of third-party organizations and individuals, as well as plastic products made by injection molding, pneumatic molding and extrusion.

## DAIRY MACHINERY AND FOOD EQUIPMENT PLANT, LLC

### Contact information:

+7 (8172) 26-48-68  
+7 (800) 551-68-77  
www.emkostvologda.ru

### Types of manufactured products:

- tank equipment
- equipment for curd production
- cheese production equipment
- equipment for butter production

The group of companies «Dairy Machines and Tank Equipment Plant» was founded in Vologda in 2000. Now the geography of supplies - more than 300 milk processing and other food enterprises in Russia and neighboring countries.

Currently, the plant specializes in the design and manufacture of equipment for dairy and other food industries. These are tanks for milk storage, production of sour-milk products, starter plants, equipment for curd and cheese production, CIP-stations, confectionery equipment and others.

## BAKORMASH, LLC

### Contact information:

+7 (495) 212-10-68  
www.ntcbakor.ru

### Types of manufactured products:

- large-size steel structures of any complexity
- transportation systems and associated equipment
- mounting and lowering booms
- thermal waste neutralization plant

BakorMash Machine-Building Plant, part of Bakor Group of Companies, manufactures vacuum ceramic disk filters and elements for the mining and processing industry in Russia and the CIS. The company grows by 1.5 fold annually with an increasing share of export sales.

## ALEXANDRA-PLUS, LLC

**Contact information:**

+7 (8172) 72-40-88

[www.alexplus.ru](http://www.alexplus.ru)

**Types of manufactured products:**

- ultrasonic equipment

The main activity of the company is development of technologies and production of technological equipment based on high-power ultrasound. The Company holds 42 industrial property patents, including 33 patents for inventions (including two Eurasian patents).

## ULTRACRAFT, CJSC

**Contact information:**

+7 (8202) 53-93-23

[www.ultrakraft.ru](http://www.ultrakraft.ru)

**Types of manufactured products:**

- non-destructive testing and automation equipment

Ultracraft CJSC is a Russian engineering company, the field of activity of which is the development and production of non-destructive testing and automation equipment. The company designs, manufactures and implements industrial complexes in the following areas: automated ultrasonic and eddy current inspection complexes for ferrous and non-ferrous metallurgy enterprises (inspection of sheet metal, pipes, long products, continuously cast billets).

## PROMELTEH, LLC

**Contact information:**

+7 (8202) 28-44-70

[www.promelteh.ru](http://www.promelteh.ru)

**Types of manufactured products:**

- low-voltage complete devices, including automation systems, oriented to industrial and power engineering applications

Promelteh LLC is a member of a group of Russian companies, whose activities cover a full range of solutions in the field of modern low-voltage electrical engineering (from equipment design to turnkey delivery) and service. Promelteh LLC has all modern technological equipment and specialized tools for the production of high quality serial and non-standard products. The basis of the company's production potential is made up by highly qualified engineers and electricians.

### **NARTIS PLANT, LLC**

**Contact information:**

+7 (8202) 20-20-27

[www.nartis.ru](http://www.nartis.ru)

**Types of manufactured products:**

- intelligent energy meters

NARTIS plant is a full cycle enterprise producing control and measuring devices. NARTIS Scientific and Technical Center carries out research and development activities, development of software solutions, technical regulations, and state-level normative documentation for the distribution grid sector.

Nartis manufacturing facilities are equipped with modern automated control and measuring equipment, which guarantees measurement accuracy and high level of operational reliability of electric meters.

### **NORD, LLC**

**Contact information:**

+7 (812) 677-93-45

[www.kotelnord.ru](http://www.kotelnord.ru)

**Types of manufactured products:**

- steam hot water boilers

NORD is located in the territory of advanced socio-economic development of the city of Cherepovets in the Vologda region.

The manufacturing facilities are equipped with modern metalworking equipment, including plasma metal cutting machines, lathes, CNC milling machines, welding machines.

In 2023, the second phase of the plant was launched, significantly increasing production volumes.

### **STALEMAL, LLC**

**Contact information:**

+7 (8202) 61-03-51

[www.rusposuda.ru](http://www.rusposuda.ru)

**Types of manufactured products:**

- enameled steel cookware

Stalemal LLC can be considered the leader in the production of enameled cookware in Russia with a total capacity of more than 7 million units per year. The products are sold under two brands: Stalemal and VITROSS.

### «VTORVTSVETMET», JSC

**Contact information:**

+7 (8172) 21-60-85  
www.vpvc.ru

**Types of manufactured products:**

- Non-ferrous alloys based on copper, aluminum and zinc
- rubber mats and curbs

The Vologda enterprise «Vtortsvetmet» has been working in the market of non-ferrous metals since 1986. The main activity is the production of copper-based alloys (brass, bronze) and aluminum. The company owns its own production and raw materials base, a fleet of heavy-duty transport, has all metallurgical and laboratory equipment necessary for the production of quality products. Electric induction furnaces and reverberatory furnaces are used to produce products in the production buildings.

### METALLRESURS, LLC

**Contact information:**

+7 (8172) 75-55-51  
www.mresurs.ru

**Types of manufactured products:**

- manufacture of steel structures

Group of companies «Metallresurs» has modern production facilities and manufactures a full range of products that meet all the needs of the customer in construction. Nowadays Metallresurs Group of Companies is a dynamically developing team of professionals in the field of design, metal fabrication and construction, capable of successfully implementing construction projects of any complexity, starting from the stage of design documentation to turnkey construction.

### CHAGODOSHCHENSKY GLASS PLANT AND K, LLC

**Contact information:**

+7 (81741) 2-14-40  
www.chszlp.ru

**Types of manufactured products:**

- production of hollow glass products

ChSZ Group is the largest manufacturer of high-quality glassware in Russia for beer, liquor, food and other industries. The production capacity of the plant in Sazonovo settlement allows to produce up to 700 million units of glassware per year.

## CHEREPOVETS SHIPBUILDING PLANT, LLC

**Contact information:**

+7 (8202) 44-64-04

[www.chsz.l-page.ru](http://www.chsz.l-page.ru)

**Types of manufactured products:**

- barges
- tugs
- pusher tugs
- barge-tug formations

The production complex in Cherepovets is one of the first in Russia to build and repair modern river-sea class vessels - tugs and barges that operate on inland waterways. The shipyard is located in the territory of advanced socio-economic development "Cherepovets" and is a resident of the PSEDA, which entitles the enterprise to tax benefits.

## BRANCH OF LLC RUSCAM STEKLOTARA HOLDING IN SAZONOVO SETTLEMENT

**Contact information:**

+7 (81741) 31131 (ext. 1541)

[www.sisecam.com.tr/ru/about-us/sisecam-in-russia](http://www.sisecam.com.tr/ru/about-us/sisecam-in-russia)

**Types of manufactured products:**

- production of hollow glass products

Branch of LLC Ruscam Steklotara Holding in Sazonovo is a part of RSH LLC, a company of the SISECAM industrial group, one of the world's leading manufacturers of glass products with operations in 13 countries. The company produces high quality products for the markets of beer, wine, strong alcoholic and non-alcoholic beverages, foodstuffs and is one of the leaders in glassware production in Russia.

## MEGA-PAK, LLC

**Contact information:**

+7 (8202) 28-34-27

+7 (921) 130-12-82

[www.mega-pak.ru](http://www.mega-pak.ru)

**Types of manufactured products:**

- production of packaging materials

«Mega-Pak» LLC is a steadily developing company, which occupies leading positions in the Vologda region and actively cooperates with enterprises of other regions. The company produces all kinds of packaging products of the highest quality.

## PROCESSING INDUSTRY

### MALLENOM SYSTEMS, LLC

**Contact information:**

+7 (800) 700-35-17  
www.mallenom.ru

**Types of manufactured products:**

- industrial control systems
- intelligent system for detecting and tracking people on video
- system of video control and accounting of road and rail transport
- machine vision
- LED illuminators for machine vision systems

Mallenom Systems is a leading Russian company in the field of development and implementation of computer vision and industrial video analytics systems based on machine vision and artificial intelligence technologies (machine learning, deep learning neural networks). Mallenom Systems products are represented in most regions of the Russian Federation, CIS and EU countries. The company's unique experience in implementation and know-how ensure rapid development of new high-tech products and solutions.

### STYLE OF VOLOGDA, JSC

**Contact information:**

+7 (8202) 28-44-70  
www.promelteh.ru

**Types of manufactured products:**

- men's and women's clothing of wide range of different types of cloth: shirts, pants, blouses, skirts and sundresses, children's outerwear and bed linen

The Vologda Garment Factory was founded more than 100 years ago, and for the last decades this enterprise has a new name - «Style of Vologda». The factory creates up to 100 thousand jackets, coats, suits, jackets annually, which makes it one of the country's largest clothing enterprises.

### NERUM, LLC

**Contact information:**

+7 (8172) 75-74-55  
www.nerum-len.ru

**Types of manufactured products:**

- linen knitted clothes

The company produces exclusive clothing from linen knitwear and eco fabrics, being the leading company in this segment in the North-West. The production uses colored linen and a lot of handwork in finishing the garments, which makes each piece unique in its own way.

## VOLOGDA TEXTILE PLANT, LLC

**Contact information:**

+7 (911) 502-46-69  
www.vologda-textile.ru

**Types of manufactured products:**

- bedding
- textiles
- clothing for the home

Since 1936 the Vologda Textile Plant has held leading positions in the production of fabrics of various categories. The production capacity of the plant is more than 8 million running meters, which makes it possible to supply the Russian market with special clothing and home textile products of the highest quality in a large assortment.

## VOLTRI, LLC

**Contact information:**

+7 (8172) 72-32-60  
www.voltri-len.ru

**Types of manufactured products:**

- knitwear and linen outerwear

Voltri, LLC is a symbolically shortened name of Vologda Knitwear. The company has been producing unique, exquisite, comfortable knitwear from ecologically clean, natural linen (flax-containing) yarn under the trademark "Vologda Linen" for almost 50 years.

## VELIKY USTYUG NORTHERN NIELLO PLANT, CJSC

**Contact information:**

+7 (8173) 82-27-07  
www.sevchern.ru

**Types of manufactured products:**

- manufacture of jewelry made of precious metals and jewels

Veliky Ustyug Northern Niello Plant is a unique enterprise of folk art craft, which was established in Veliky Ustyug in the XVII century, preserving and developing three hundred years of traditions of the Old Russian art of silver niello, which has no counterparts in the modern jewelry art.

All products of Northern Niello are produced in the traditional way for folk art crafts by hand, with observance of the basic techniques of ancient masters in the process.

## PROCESSING INDUSTRY

### PAINT-BRUSH PLANT, LLC

**Contact information:**
